

Particle or Wave

By Mary Warner

Particle or wave
You decide

Focus
Focus in on your intention
Make the particles become the wave
Of some distinction

Matter jumping, jumping in and out
Between this reality and that

Parallel lives coursing, crossing
Possibilities mysteriously appearing

Particle or wave
You decide

Focus
Focus in on your intention
Make the particles become a wave
Of your selection

Point in space, point in space
Time connects the two

Balance on the fulcrum
Am I me or am I you?

Particle or wave
You decide

Focus
Focus in on your intention
Make the particles become the wave
Of bold conception

Infinity weaving lines of infinity
God is in the gap, the gap called time

Fate, the free will of your observer
Tap it, choose it, work it or lose it

Particle or wave
You decide

Focus
Focus in on your intention
Make the particles become the wave
Of your creation
